

PGCLOUD BACK OFFICE

Admin UI

Staff only pages inside the console, guarded by the admin scope that only staff sessions and staff tokens carry. Eight screens for support, capacity, trust and finance. Captured from the running console on 26 September 2026 with demo data.

1. Overview
2. Teams
3. Team detail
4. Servers
5. Hosts
6. Abuse flags
7. Finance
8. Audit log

Overview

Teams, servers, usage this month, payments received, open invoices, pending approvals, abuse flags, host capacity and the newest teams.

Hosts

Capacity bars for vCPU, memory and disk per host, heartbeat, and status changes (active, draining, maintenance, down). Register a new host for the agent.

Hosts

HOST	STATUS	VCPU	MEMORY	DISK	SERVICES	HEARTBEAT	
fake1 ist1 · fake	active	8/64	14/256 GB	315/4000 GB	7	never	active

Register a host

Creates the row the host agent needs. Put the returned id in the agent config on the Proxmox node and run the Ansible playbook.

proxmox

Register

Abuse flags

Flags from payment failures, abuse reports and AI ops checks with score and evidence. Resolve as false positive, warned, or suspend the team.

Abuse flags

Raised by payment failures, abuse reports and the AI ops checks. Scores of 90 and above suspend the team automatically; everything else waits here.

SCORE	KIND	TEAM	EVIDENCE	RAISED			
55	mining ai-ops	Dev Team	{"hours":6, "process":"xmrig", "cpuPercent":99}	26 Sept 2026, 07:10	False positive	Warned	Suspend
20	report abuse-report	Dev Team	{"reporter":"abuse@example.net"}	26 Sept 2026, 07:10	False positive	Warned	Suspend

Finance

Exchange rate with history, set by hand or refresh from the provider. USD price list with in place changes. All invoices with overdue markers. Run the hourly rating or the monthly invoice run.

Finance

Rate previous hour

Issue monthly invoices

Exchange rate

USD to TRY: 41.0000

Prices are kept in dollars. Lira prices and invoices use the rate stored at the hour of usage. The hourly job refreshes it from the provider; set it by hand when the provider is down or the central bank rate must be used.

41.2500

Set rate

Refresh now
